M1 Earbuds

Charging cable

Quick start guide

☑ **Select one earbud as main earbud**

Remark: Make sure the other earbud is in the charging case

☑ **Quick press 2 times MFB**

Red/Blue LED blinking and you will hear "Pairing"

☑ **Search the bluetooth list from device, and choose "M1(R) or (L)"**

You will hear "connected" Pairing is done and succeed. If require, Please input "0000" as bluetooth password

☑ **Pick up the other earbud from charging case**

You will hear "Power on" and "TWS connected"

M1 remember devices it's not necessary to Repair, Enable bluetooth on your device, it'll reconnect automatically.

Note: All calls will be heard in the Main earbud only.

Best fit & best sound

Try all the ear tips to find the best fit and the best sound. The fit is right when you get a complete seal, the ear tips feel comfortable, and you get the best quality and loudest sound.

Insert the earbuds with the ear tip directed towards your ear canal. Twist gently until fit comfortably and feel secure in your ear.

Tip: More than one ear tips size may fit you. Choose the one that completely seals your ear canal for the best sound. You may need different size ear tips for left and right.

Charging base(Full) provide power to earphone: 2 times

Charging time : 2hrs

Safety instructions for use

To avoid hearing damage, keep the volume at a moderate level. Avoid listening to music at loud volume levels for prolonged periods of time as this may cause permanent hearing damage or hearing loss.

Do not use M1 when it is unsafe to do so. For example, while operating a vehicle, cycling, crossing a road, or any activity which requires your attention and ability to hear.

Note: If you are watching video while using your earbuds, your audio may be slightly out of sync with your device.

Safety Warning

Please disconnect the USB cable after charging. Product should not be charging in a long time.

Please use the charger or adaptor with output voltage and current(max) 5V/1A or 5V/1.5A and product original charging cable for the product charging. If the output voltage and current of the charger exceeds the requirement, it will cause severe damage to the product, and the product warranty will be invalid.
