How to Pair

The two earbuds have been connected by default. How to pair with smartphone for the first time?

1. The earbuds automatically turn on (blue indicator lights on) when take out from charging box, the two earbuds will auto connect with each other in 5s.
2. Turn on the phone Bluetooth, search for T6, and click to pair. When connected, you will hear "Connected" voice prompt and the phone will display "connected".

When you use it again, the earbuds will auto re-connect to connected smartphone when use again. If not, please manually connect.

*It is recommended that take out two earbuds at the same, and the left earbud will auto gets in to pairing mode with smartphone.

*You have 3 minutes to connect your earbud with your device, otherwise the earbud will exit pairing mode. Putting the earbud back into the charging box will re-enter the pairing mode.

*The earbuds will auto power off when no connection for 5 minutes.

*The left and right earbuds can be used as separate mono earbuds. TWS Earbuds Pairing (left earbud/main, right earbud/sub)

*If the two earbuds haven't been connected, please put the left and right earbuds back into the charging box and repeat the above steps.

*If there is no sound on either earbud, please put them back to charging box and take out again, the two earbuds will auto reconnect to paired device (sometimes, please manually connect).

*The above operations need to disconnect all connections.
